District treasurer,

AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the school district of Gilsum, of which the above is a true summary for the fiscal year ending June 30, 1950 and find them correct in all respects.

ARTHUR TURNER,

Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Gilsum :

I herewith submit my seventh annual report as superintendent of your school :

The enrollment at this time is just what it was last year, 88, although the grade distribution is somewhat different. A number of families have moved away which accounts for some of the decrease.

There are fewer pupils in high school this year than anticipated. Some of the boys left school to enlist in the armed forces, and some lost interest in further education. It is regrettable that so many of our young people fail to realize how much a high school education might mean to them until it is too late to get it.

School costs, as everything else, continue to rise. Your school board recommends only enough money to cover actual costs for next year. The teachers and pupils have been most co-operative in obtaining the maximum use from textbooks and supplies. Teachers' salaries continue to rise, yet are lower than those in industry.

The supply of qualified teachers gets less each year. Increased enrollments require more classrooms and teachers, yet the number of young people entering this field is not increasing fast enough to meet the needs. Better working conditions and contractual relations, adequate supplies and facilities are some ways of attracting the better candidates.

Last summer the building was painted on the outside, and the usual cleaning and minor repairs attended to. There is a great deal of heat loss through the walls and ceilings, particularly in the older rooms. Considerable work needs to be done on the storm windows to make them as effective as they should

be. Several more windows are needed, also. Insulation should help a great deal in making the building more comfortable and in saving fuel.
